creo que muchos de los profesionales de la salud no tienen una comprensión adecuada acerca de lo que abarca la medicina del trabajo y las relaciones que esta tiene con la epidemiología más aún frecuentemente se encuentra una falta de comunicación entre el médico del trabajo y el epidemiólogo a pesar de su mutuo interés en la salud y la enfermedad de los trabajadores además considero justo decir que la mayoría de los estudiantes de medicina y de otras ciencias de la salud

consideran a la medicina del trabajo y a la epidemiología como unidades de aprendizaje aburridas e irrelevantes las que se estudian únicamente porque se les obliga a ello otro punto de vista común en lo referente a la epidemiología es que se le considera altamente matemática y demasiado compleja para entenderla con este pensamiento he intentado escribir un libro de texto conciso para médicos del trabajo estudiantes de medicina y otros profesionales de la salud que pueda explicar los conceptos básicos de la epidemiología de manera clara y sencilla he tratado de suprimir la brecha existente en la comunicación entre el médico del trabajo como clínico y el epidemiólogo describiendo algunos ejemplos clínicos a través del libro explicando al médico del trabajo por que es necesario el énfasis epidemiológico sobre el estudio de grupos de trabajadores mas que de individuos
