following the arab uprisings new ways of understanding sectarianism and sect based differences emerged but these perspectives while useful reduced sectarian identities to a consequence of either primordial tensions or instrumentalised identities while more recently third way approaches addressed the problems with these two positions the complexity of sectarian identities within and across states remains unexplored this book fills the gap in the literature to offer a more nuanced reading of both sectarian identities and also de sectarianization across the middle east to do so the volume provides a comparative account looking at iraq bahrain yemen syria and lebanon it examines the ways in which sect based difference shapes regional politics and vice versa the book also contributes to burgeoning debates on the role of protest movements in sectarianism chapters are split across three main sections the first looks at sects and states the second traces the relationship between sects and regional dynamics and the third examines de sectarianization that is the contestation and destabilization of sectarian identities in socio political life each section provides a

---

more holistic understanding of the role of sectarian identities in the contemporary middle east and shows how sectarian groups operate within and across state borders and why this has serious implications for the ordering of life across the middle east

this book explores the evolving roles of energy stakeholders and geopolitical considerations leveraging on the dizzying array of planned and actual projects for solar wind hydropower waste to energy and nuclear power in the region over the next few decades favorable economics for low carbon energy sources combined with stagnant oil demand growth will facilitate a shift away from today s fossil fuel based energy system will the countries of the middle east and north africa be losers or leaders in this energy transition will state society relations undergo a change as a result it suggests that ultimately politics more so than economics or environmental pressure will determine the speed scope and effects of low carbon energy uptake in the region this book is of interest to academics working in the fields of international relations international political economy comparative political economy energy economics and international business consultants practitioners policy makers and risk analysts will also find the insights helpful

volume i a an outbreak of a respiratory disease first reported in wuhan china in december 2019 and the causative agent was discovered in january 2020 to be a novel betacoronavirus of the same subgenus as sars cov and named severe acute respiratory syndrome coronavirus 2 sars cov 2 coronavirus disease 2019 covid 19 has rapidly disseminated worldwide with clinical manifestations ranging from mild respiratory symptoms to severe pneumonia and a fatality rate estimated around 2 person to person transmission is occurring both in the community and healthcare settings the world health organization who has recently declared the covid 19 epidemic a public health emergency of international concern the ongoing outbreak presents many clinical and public health management challenges due to limited understanding of viral pathogenesis risk factors for infection natural history of disease including clinical presentation and outcomes prognostic factors for severe illness period of infectivity modes and extent of virus inter human transmission as well as effective preventive measures and public health response and containment interventions there are no antiviral treatment nor vaccine available but fast track research and development efforts including clinical therapeutic trials are ongoing across the world managing this serious epidemic requires the appropriate deployment of limited human resources across all cadres of health care and public health staff including clinical laboratory managerial and epidemiological data analysis and risk assessment experts it presents challenges around public communication and messaging around risk with the potential for misinformation and disinformation therefore integrated operational research and intervention learning from experiences across different fields and settings should contribute towards better understanding and managing covid 19 this research topic aims to highlight interdisciplinary research approaches deployed during the

this book focuses on range and intensity of social changes that have occurred in the middle east examining specific issues important to an understanding of contemporary middle eastern politics up to and including events in the twenty first century

this is an open access title available under the terms of a cc by nc nd 4 0 international licence it is free to read at oxford scholarship online and offered as a free pdf download from oup and selected open access locations borderlands europe and the mediterranean middle east proposes a profound rethink of the complex relationship between europe defined here as the european union and its members and the states of the mediterranean middle east and north africa mena europe s southern neighbours these relations are examined through a borderlands prism that conceives of this interaction as of one between an empire of sorts which seeks to export its order beyond the border and the empire s southern borderlands focusing on trade relations on the one hand and the cooperation on migration borders and security on the other the book revisits the historical origins and modalities of europe s selective rule transfer to mena states the interests underwriting these policies and the complex dynamics marking the interaction between the two sides over a twenty year period 1995 2015 it shows that within a system of structurally asymmetric economic relations from which europe and mena elites benefit the most single mena governments have been co opted into the management of border and migration control where they act as europe s gatekeepers combined with specific policy choices of mena governments europe s selective expansion of its rules practices and disaggregated borders have in fact contributed to rising socio economic inequalities and the strengthening of authoritarian rule in the southern neighbourhood with europe tacitly tolerating serious violations of the rights of refugees and migrants at its fringes challenging the self proclaimed benevolent nature of european policies and the notion of fortress europe alike the findings of this study contribute to broader debates on power dependence and interdependence in the discipline of international relations

thoroughly updated and revised for 2024 jerusalem the biography is the history of the middle east through the lens of the holy city and the holy land from king david to the wars and chaos of today the history of jerusalem is the story of the world jerusalem is the universal city the capital of two peoples the shrine of three faiths the holy city and holy land are the battlefields for today s multifaceted conflicts and for believers the setting for judgement day and the apocalypse how did this small remote town become the holy city the centre of the world and now the key to peace in the middle east why is the holy land so important not just to the region and its many new players but to the wider world too drawing on new archives and a lifetime s study montefiore reveals this ever changing city and turbulent region through the wars love affairs and revelations of the kings empresses amirs sultans caliphs presidents autocrats imperialists and warlords poets prophets saints and rabbis conquerors and whores who created destroyed chronicled and believed in jerusalem and the holy land a classic of modern literature this is not only the epic story of 3 000 years of faith slaughter

fanaticism co existence power and myth but also a freshly updated carefully balanced history of the middle east from king david to the new players and powers of the twenty first century from the birth of judaism christianity and islam to the israel palestine conflict and the mayhem of today this is how today s middle east was forged how the holy land became sacred and how jerusalem became jerusalem the only city that exists twice in heaven and on earth

this work represents the current and most relevant content on the studies of how christianity has fared in the ancient home of its founder and birth much has been written about christianity and how it has survived since its migration out of its homeland but this comprehensive reference work reassesses the geographic and demographic impact of the dramatic changes in this perennially combustible world region the rowman littlefield handbook of christianity in the middle east also spans the historical socio political and contemporary settings of the region and importantly describes the interactions that christianity has had with other major minor religions in the region

the first ever a z survey of the major modern and contemporary artists of the middle east
